2. Which transport carries more people? [2]

3. Why do people move from one place to another? Give two reasons. [4]

a. _____

b. _____

Total [11]

Question 3: Transport through time

Read the case study below and answer the questions that will follow.

The motor car

The motor car was one of the most important inventions of all time.

Karl Benz, a German engineer, is generally agreed to be the inventor of the modern motor car. This happened in 1885. Cars became more and more popular.

This changed when an American engineer called Henry Ford introduced a system of mass production to make cars. This meant that cars were produced quickly and cheaply so more could afford to buy them.

Cars changed people's lives forever. They could go wherever they wanted to and could travel much further and faster. People could live further from the city and they could drive work.

1. Which invention was one of the important inventions of all time? [1]

2. Write down the name of an American engineer who introduce a mass production to make cars. [1]

3. How does cars change people's lives?

[2]

4. In the following page, look carefully at the two pictures of the cars, Karl Benz car and Henry Ford car. In what ways are they different? Write a paragraph of about five (5) lines explaining the **differences** between these two cars. [5]

Karl Benz 1885

Henry Ford 1908

Total [9]
