## Imiyalelo

1. Funda yonke imiyalelo ngokucophelela ephepheni lemibuzo.
2. Qonda umbuzo ngaphambi kokuphendula.
3. Phendula yonke imibuzo.
4. Bala kahle ngaphambi kokuphendula.
5. Ukusetshenziswa komshini wokubala akuvunyelwe.

Nginifisela inhlanhla

Ngiyaziqhanya ngani

Niyisibane sezwe

## I. Izinombolo, izimpawu kanye nobudlelwane bazo

Kokelezela uhlamvu olunempendulo efanele ukusukela kumbuzo I ukuya ku 8

I.1 Luyini uphawu lwenombolo engamashumi amathathu?

- A. 13
- B. 3
- C. 30
- D. 33

I.2 Liyini igama lama 40?

- A. amashumi mane
- B. ishumi nane
- C. kune
- D. amashumi amane

I.3 Oku 2 ngaphezu kwe 19?

- A. 17
- B. 21
- C. 20
- D. 22

I.4 Liyini inani lesi 8 kuma 84?

- A. 8
- B. 10
- C. 80
- D. 18

I.5 Bala inani le 11 nesi 9

- A. 19
- B. 20
- C. 21
- D. 29

I.6 Susa okuthathu e 18, impendulo yi?

- A. 21
- B. 16
- C. 14
- D. 15

I.7 Uyini uhhafu we 12?

- A. 4
- B. 5
- C. 6
- D. 8

I.8 Liyini inani lesi 7 uma uliphinda kabili?

- A. 15
- B. 14
- C. 16
- D. 17

I.9 Ubungako benani lenombolo

Bhala umusho wezinombolo walokhu okulandelayo

$$\underline{\hspace{2cm}} + \underline{\hspace{2cm}} = \underline{\hspace{2cm}}$$

I.10 Faka uphawu olufanele  $<$ ,  $=$ ,  $>$

Amashumi ayi 9  $\underline{\hspace{1cm}}$  90

I.II Ukudlulela eshumini

Bala usebenzisa umugqa wezinombolo

$$7+8= \underline{\hspace{2cm}}$$

Ukuxazulula izinkinga

I.I2 Kunemigede eyisi 6.

Umhume ngamunye unamalulwane ama 3.

Kunamalulwane amangaki esehlangene onke?

Dweba isithombe

|  |
|--|
|  |
|--|

Bhala umusho wezinombolo \_\_\_\_\_

I.I3 Kunamabhaluni ayi 15.

Ayisi 7 aqhumile.

Kusele amangaki?

Dweba isithombe

|  |
|--|
|  |
|--|

Bhala umusho wezinombolo \_\_\_\_\_

1.14 UBhen unezitikha eziyi 12 kanti uSam unezi 5 ngaphezu kwakhe.  
USam unezitikha ezingaki?

Dweba isithombe

Bhala umusho wezinombolo \_\_\_\_\_

1.15 Imali

UJack wonge ama R20.00 kwathi uJill wonga ama R4.50 ngaphansi kwakhe.

UJill wonge malini?

Bala umusho wezinombolo \_\_\_\_\_

1.16 Izinombolo ezingama - Ordinal

Yisiphi isimo sesithathu? \_\_\_\_\_

1.17 Hlukanisa isimo sibe ngamakota.

1.18 Qedela lethebula elingezansi.

Inqola eyodwa inamasondo ama 3.

Mangaki amasondo asezingoleni ezi 4?

| Inani lezingqola ezimasondo mathathu | 1 | 2 | 3 | 4 |
|--------------------------------------|---|---|---|---|
| Inani lamasondo                      | 3 |   | 9 |   |

Inani

## 2. Amaphethini, ukuxhumana kanye ne-al jibhra

### 2.1 Amaphethini e jiyomethri

a) Qedela lamaphethini angezansi

|    |      |    |      |  |  |
|----|------|----|------|--|--|
| // | //// | // | //// |  |  |
|----|------|----|------|--|--|

b) Nweba lephethini engezansi

|   |    |     |      |  |  |
|---|----|-----|------|--|--|
| L | LL | LLL | LLLL |  |  |
|---|----|-----|------|--|--|

c) Yenza eyakho iphethini

|  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|
|  |  |  |  |  |  |  |
|--|--|--|--|--|--|--|

### 2.2 Amaphethini ezinombolo

a) Qedela lephethini yezinombolo engezansi

|   |    |     |   |    |     |  |  |  |
|---|----|-----|---|----|-----|--|--|--|
| 5 | 50 | 150 | 5 | 50 | 150 |  |  |  |
|---|----|-----|---|----|-----|--|--|--|

b) Nweba lephethini yezinombolo

|    |    |    |  |  |  |  |  |  |
|----|----|----|--|--|--|--|--|--|
| 55 | 60 | 65 |  |  |  |  |  |  |
|----|----|----|--|--|--|--|--|--|

c) Hlela lesethi yezinombolo ngendlela enyukayo

|     |     |     |    |    |
|-----|-----|-----|----|----|
| 140 | 149 | 124 | 24 | 44 |
|     |     |     |    |    |

Inani

### 3. Indawo nesimo

a) Isiqukathi siyagingqika noma siyashishiliza?

|                                                                                   |                                                                                    |
|-----------------------------------------------------------------------------------|------------------------------------------------------------------------------------|
|  |  |
|                                                                                   |                                                                                    |

b) Beka amabhokisi atakelane uqale ngelikhulu ugcine ngelincane.

|                                                                                   |       |
|-----------------------------------------------------------------------------------|-------|
|  | Dweba |
|-----------------------------------------------------------------------------------|-------|

c) Dweba i...

|        |         |
|--------|---------|
| ikhoni | silinda |
|--------|---------|

Lesiqukathi siyi\_\_\_\_\_

Sinezinhlangothi ezi\_\_\_\_\_ namakhona a\_\_\_\_\_

Inani

## 4. Isilinganiso

### 4.1 Isikhathi

a) Sikhathi sini?

b) Qedela ngokufaka izinyanga zonyaka ngokulandelana kwazo emabhilokhini afanele.

Khombisa usuku lokuzalwa lukathisha wakho ngokudweba inhliziyo ngakwesokudla kwaleyonyanga.

|           |           |         |        |       |             |
|-----------|-----------|---------|--------|-------|-------------|
| Masingana | Nhlolanja |         | Mbasa  |       | Nhlangulana |
|           | Ncwaba    | Mandulo | Mfumfu | Lwezi | Zibandlela  |

c) USam uhambe ngezinyawo waya esitolo ngehora le 10 ngqo ekhanda. Ubuye ngehora le 12 ngqo ekhanda.

Uma ubuka izikhathi ezingezansi kudlule isikhathi esingakanani?

## 4.2 Ubude

a) Qagela ubese uyakala.

|                                                                                   |                                                                                                                                                                          |
|-----------------------------------------------------------------------------------|--------------------------------------------------------------------------------------------------------------------------------------------------------------------------|
| Qagela ukuthi kudingeka amabhilokhi amangakhi                                     | Kala ngokubala amabhilokhi                                                                                                                                               |
|  | <br> |

b) Hlela lezithombe ukusukela kwesomuntu omude, omude ngokuphakathi nendawo nomude kakhulu ubese ubhala igama ngaphansi kwesithombe.

|                                                                                    |                                                                                    |                                                                                      |
|------------------------------------------------------------------------------------|------------------------------------------------------------------------------------|--------------------------------------------------------------------------------------|
|  |  |  |
|                                                                                    |                                                                                    |                                                                                      |

c) Hlela lesithombe ukusukela kwesomuntu omfishane, omfishanyana nomfishane kakhulu ubese ubhala igama ngaphansi kwesithombe.

|                                                                                     |                                                                                     |                                                                                       |
|-------------------------------------------------------------------------------------|-------------------------------------------------------------------------------------|---------------------------------------------------------------------------------------|
|  |  |  |
|                                                                                     |                                                                                     |                                                                                       |

Inani

## 5. Ukuqokelelwa kolwazi

Bala ubese uhlela izimo kumakholomu afanele.

1. Yisiphi isimo esinesibalo esikhulu? \_\_\_\_\_
2. Yisiphi isimo esinesibalo esincane? \_\_\_\_\_
3. Yiziphi izimo ezinenani elifanayo? \_\_\_\_\_
