Activity 2: Topic: Pollution

5a. Read the following passage and answer the questions

Water Pollution

Avoid dumping waste. Even if you don't live near a river, waste in the streets washes into stormwater drains and ends up in rivers and dams. This can cause health risks to humans, animals, and plants. Plastic is dangerous since it does not decompose easily. Rivers can flow for hundreds of kilometres, so waste can infect wherever it flows until it eventually reaches an ocean, where it affects marine life.

i. Name 2 types of pollution

ii. How does water pollution affect marine life?

iii. What is land pollution?

iv. Air pollution destroys the (sun/ozone layer) which protects life on earth from harmful rays of the sun.

v. What can you do to prevent pollution at school or home?
Discuss using 2 sentences.

Activity 6 Topic: Space - Poetry Performance in groups: choral
verse combined with movements and gestures.

The following poem may be used or any other poem on Space
Travel

Moon

Are you lonely, Moon?
You giant white balloon!
You have no water, wind, or air.
No wonder, nothing lives there.
You can't grow trees or flowers or grass.
Your soil is only rocks and glass.
Even your light is not your own.
Instead, it's from the sun that's shone.
Your gravity is weak, I hear.
You really have no atmosphere.
But don't be sad, Moon, please don't cry.
For I still love you in the sky
